

For Immediate Release

GULF OIL GROWS WITH FABIAN OIL, INC.

Gulf Branded Supply at Fabian's New England Locations

Wellesley Hills, Massachusetts – October 24, 2016 – [Gulf Oil](#), one of the fastest-growing branded fuel marketers in the U.S., has increased its reach in New England through an expanded relationship with [Fabian Oil, Inc.](#) With this expansion, Gulf will provide branded wet barrel supply to the Oakland, Maine-based company's stations throughout the region, further promoting reliable fuel supply, exceptional customer service and unique marketing programs.

Fabian, a family-owned business with deep roots in Maine, was founded as a single retail gas station in 1988. Today, the company boasts multiple retail locations in Maine and services a vast market throughout New England.

"Like Gulf, Fabian places great value on the relationships it has forged within the communities it serves," said Meredith L. Sadlowski, SVP of Branded Sales and Marketing at Gulf Oil. "Our two companies share a common philosophy and vision, and our enhanced relationship will continue to provide exceptional service and quality fuel to our customers."

Ted Fabian, Vice President of Fabian, said his company looks forward to continuing to work alongside Gulf while supplying reliable fuel and friendly service to local motorists. "Fabian has been a one-stop shop for all of central Maine's fuel needs for more than 25 years and we are confident that the iconic Gulf brand will aid us in further expansion into the retail fuel arena."

About Gulf Oil

Gulf Oil is a diverse refined products terminaling, storage and logistics business and is a leading distributor of motor fuels in the United States. Gulf owns and operates a network of 17 terminals with over 14 million barrels of refined product storage capacity. With its premier terminaling and logistics platform, Gulf has access to the Mid-Continent, Gulf Coast and the New York Harbor supply hubs, which translates into competitive and diverse supply options for customers. More information about Gulf Oil can be found at www.gulfoil.com.
