GULF OIL CONTINUES GROWTH IN TEXAS

Expansion Brings Gulf Branded Supply to Austin, Dallas, San Antonio and Waco

Wellesley Hills, Massachusetts – September 27, 2016 – Gulf Oil, one of the fastest-growing branded fuel marketers in the U.S., announced expanded capability to provide branded wet barrel supply to fuel distributors in the Austin, Dallas, San Antonio and Waco market areas.

Founded in Beaumont, Texas over 110 years ago, Gulf is proudly continuing its return to the Lone Star State and expects that this new supply option will help fuel future growth for Gulf distributors.

Gulf maintains strong brand loyalty from customers who have respected the iconic orange disc logo since the company pioneered the concept of branded product sales in the early 20th century. The quality and consistency of the products of the brand remain the hallmarks of the company today.

“We are pleased to be able to provide motorists with quality Gulf branded fuel and look forward to continued growth with our partners here in the great state of Texas, where the Gulf legacy was born in the early 1900s,” said Todd O’Malley, EVP and Chief Commercial Officer of Gulf Oil.

Distributors who partner with Gulf can rely on dependable supply, flexible service offerings, outstanding customer service from an experienced management team, a commitment to continued growth, and an increased brand presence.

About Gulf Oil

Gulf Oil is a diverse refined products terminaling, storage and logistics business and is a leading distributor of motor fuels in the United States. Gulf owns and operates a network of 17 terminals with over 14 million barrels of refined product storage capacity. With its premier terminaling and logistics platform, Gulf has access to the Mid-Continent, Gulf Coast and the New York Harbor supply hubs, which translates into competitive and diverse supply options for customers.
